15 Lithoss goes social networks

Already our 3rd magazine!  
It seems only yesterday that we decided to explore the possibilities of the modern communication techniques and launched our first Lithoss magazine.

The market seems to be more active than ever! This is resulting in loads of nice projects of which you can admire a couple in this magazine. It is clear that the tendency to realise that design switches do have a important place in a house or hotel is evolving rapidly!

We are proud to be part of the new prestigious hotel project in Knokke. La reserve will be opening its doors soon and will be a hotel full of luxury and quality design in this mundane city at the belgian coast. Our Immix switches will help to create this feeling. They have chosen for the beautiful combination of Inox and Fusain!

## IMMIX ... going chrome & fusain ...

## IMMIX : La Reserve (Knokke - Belgium)

The mundane city Knokke, at the Belgian coast, is a new highlight richer! Lithoss is proud to be part of the new prestigious hotel project "La Reserve" in Knokke. La Reserve is more than just a hotel, it's a real statement. An impressive and subtle mix of refined Luxury and a true state of modern art technology. The design, chosen by the architects for the 110 luxurious rooms, is a beautiful IMMIX combination of fusain with brushed stainless steel. Printing was foreseen to make it as clear as possible for hotel guests.

The hotel will open its doors very soon.

## New Dealer Showroom Spain

On Thursday the 28th of April our new distributor in Spain Space Lighting has opened its first brand new showroom in the heart of Barcelona centre.

The concept of the building was to find a perfect balance between showroom, light center and offices. The final result is even better than expected due to the huge shopping windows and the spacious environment inside of the building.

At night a full color changing Led lighting system creates the right atmosphere. If you happen to be Barcelona it's worth a visit !

## Client in the picture : *Holger Saeckel* (Vienna - Austria)

Lithoss puts its clients, dealers, distributors always first. And when one of its distributors makes a big effort to introduce the Lithoss products in his or her country, we want to pay extra attention to this in our magazine. Our client in the picture is Mr. Holger Saeckel, distributor for Lithoss in Austria, who opened a showroom in the design heart of Vienna.

### Luxurious Hotel meets Design center

Since 4 December 2010 is Vienna a Design Highlight richer : the Design center "stilwerk". This design center is located in a completely new building designed by top architect Jean Nouvel. The tower offers more than 6000m<sup>2</sup> with more than 20 exclusive shops with known and unknown brands spread over 4 floors. Stilwerk is already known for 14 years for Design, exclusive decoration and lifestyle accessories worldwide because of the existing other stilwerk buildings in Hamburg, Berlin and Düsseldorf.

Because of the high attention to design, Lithoss fits perfectly in stilwerk, that attracts a national and international public. There are often special events and fairs to put the shops and design products in the spotlight.

### You can visit the showroom on following address :

*stilwerk : Wien 1.OG, 1020-Wien, Praterstrasse 1*

## Project in the spotlight : Accoform Offices (Ardoorie - Belgium)

In Deinze Belgium, the accoform group has built new offices. The interior is very stylish and modern. With a beautiful view on the lake the offices are very minimalistic in a white environment. To add a little touch of liveliness it was decided to opt for our Lithoss Illume switches. The result is absolutely stunning!

## Project in the picture : Private house (Brugge - Belgium)

In the middle of the country side a unique house was build with very symmetrical architecture completed with attention to simple details. Behind the classic front of the house, you find a very rustic interior, very contemporary. To create a serene atmosphere, a lot of attention was paid to details. Authenticity was important without ignoring todays modern technology. Lithoss handmade switches in an artisanal bronze finishing integrates perfectly within the style of this house. The result is a true diamond in the middle of the country side in Flanders (Belgium).

Get your Lithoss project published!  
Lithoss switches are already integrated in a lot of prestigious and nice projects.  
We would like to bundle these and put in each Lithoss magazine a special project.  
Mail us your high resolution pictures and we will publish the best project in this magazine!

Give your car a lift.

innovation in motion by

### RDL CAR LIFTS

RDL Engineering has designed a car lift that can get your car quickly and safely from one floor to the next especially for homes and apartment buildings with shared garages that have limited access. RDL Engineering car lifts only need very limited space and are made of strong, maintenance-friendly materials with reliable technological control systems.

## Product in the spotlight : KNX switch

Lithoss launches a basic yet versatile KNX/EIB version. The well known 24V pushbutton range (with or without LED's) is now available in a KNX/EIB version. The pushbutton frames are delivered with a plug & play wired KNX/EIB pushbutton interface reducing the installation time and cost to an absolute minimum. All buttons and LED's can be separately programmed to their own specific function using ETS software. Functions such as on/off, dimming control, up/down movement, scene's, ... are only some of the available possibilities. The optional white LED's can also be programmed separately to offer even more personalized options. Lithoss, together with Hager, was able to develop the KNX/EIB interface for a very reasonable price making the total concept of Lithoss switch and interface very compatible in the global KNX/EIB application market.

### Technical information

Bus specification : TP (Twisted Pair) connection  
Bus tension : 30VDC  
LED : white

Ask our sales department for more technical specs and prices.

## Mrs. Melanie Peterson

Lithoss welcomes a new member in the company : Miss Melanie Peterson. She will be responsible for the German market.
